Why Chiropractic? People go to chiropractors for a variety of reasons. Some go for symptomatic relief of pain or discomfort (relief care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (corrective care). Your doctor will weigh your child's needs and desires when recommending your treatment program. **Please circle which type of care fits your needs.**

RELIEF CARE
Relief care is that care necessary to get rid of your symptoms or pain, but not the cause of it. It is the same as drying a floor that was getting wet from a leak, but not fixing the leak.

CORRECTIVE CARE
Corrective care differs from relief care in that its goal is to get rid of the symptoms or pain while correcting the cause of the problem. Corrective care varies in length of time, but is more lasting.

I authorize Intouch Chiropractic to render necessary services to me and I am responsible for all charges incurred.

Patient Consent to Physical Examination and X-Rays

Prior to receiving chiropractic care in this chiropractic office, a health history and physical examination will be completed. These procedures are performed to assess your child's specific condition, his/her overall health and, in particular, his/her spinal health. These procedures will assist us in determining if chiropractic care is needed, or if any further examinations or studies are needed before treatment. In addition, they will help us determine if there is any reason to modify his/her care or provide him/her with a referral to another health care provider. All relevant findings will be reported to you along with a care plan to help him/her become healthier prior to beginning care.

During his/her examination, the doctor may determine that x-rays will be needed. In order to perform x-rays on any patient, our office requires the parent/guardian consent for such tests.

I understand that the doctor may need x-rays in order to diagnose his/her condition and I give permission of all needed diagnostic tests, x-rays and physical examinations.

Females Only: Regarding Possibility of Pregnancy

I understand that x-rays may be needed at some point and that by signature on this form, I do hereby state that to the best of my knowledge, my child is not pregnant. It is neither suspected nor confirmed at this particular time that she is pregnant. If determined at a later date that she is pregnant, I do not hold the doctor, health care provider's associates, association, corporation, partnership, employees, agents and estate of this establishment accountable in any way.
