

**Devin Young DC, DCCJP**  
**2425 Camino Del Rio South #100**  
**San Diego, CA 92108**  
**619-756-7510**

## **SELECTED OCCUPATIONAL HISTORY**

Clinic Director and Owner, Intouch Chiropractic, San Diego, CA 2013 – present  
Upper Cervical Chiropractic Care Specializing in the NUCCA Technique and  
Non-Surgical Spinal Decompression

Clinic Director and Owner, New Life Chiropractic & Wellness, New Braunfels, TX 2011-2012

## **EDUCATION AND LICENSURE**

Doctor of Chiropractic, Licensed in the State of California, License DC32061

Certification in X-Ray Supervisor and Operator #RHC00200311, California Department of Public Health, Radiologic Health Branch, San Diego, CA

Doctor of Chiropractic, Licensed in the State of Texas, License DC 11848, 2011-2012

Doctorate of Chiropractic, Life Chiropractic College West, Hayward, California, 2011

Internship, Life Chiropractic College West Outpatient Facility, Hayward, California, 2010-2011

National Board of Chiropractic Examiners, Part III and IV, 2010

National Board of Chiropractic Examiners, Part II, 2009

National Board of Chiropractic Examiners, Part I, 2009

Bachelor of Science in Human Biodynamics, *Emphasis in Exercise Physiology*, University of California Berkeley, Berkeley, California, 1996

## **SELECTED POST-GRADUATE EDUCATION, CERTIFICATIONS AND DIPLOMATES**

Diplomate in Craniocervical Junction Procedures, *300 hour Post-Doctorate instruction centered on, but not limited to advanced upper cervical anatomy, neuro anatomy, vascular anatomy, functional neurology, upper cervical biomechanics, and advanced imaging*. International Chiropractic Association Council on Upper Cervical Care, Department of Continuing Education Palmer College of Chiropractic, Chicago, Illinois, 2016-Present

Basic MRI II. *Multiplanar images of MRI, the shades of gray and the differences between T1 and T2 weighted images. Special MRI studies that help identify different pathologies, including Fat Suppression, Contrast Enhanced and Functional MRI studies.* DC Hours, Online, 2018

Advanced Imaging Review. *The subject matter included, but was not limited to: the use of MRI to determine injuries and stability of the cervical spine; upper cervical anatomy, upper cervical anomalies, neuroanatomy and vascular anatomy.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Tampa, Florida, 2018

Ethics and Law in Personal Injury, *Maintaining ethical relationships and thorough documentation that reflects complete findings,* American Academy of Motor Vehicle Injuries, California Chiropractic Association Continuing Education, San Diego, California, 2018

Outcome Assessments and Technology. International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2018

Neuroradiology. International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Online, 2018

CBCT. *Overview and understanding of the use of Cone Beam Computed Tomography and its implications for upper cervical chiropractic care.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Online, 2018

Certified Level II in NUCCA Procedures, National Upper Cervical Chiropractic Association, Minneapolis, Minnesota, 2018

Advanced MRI. *The subject matter included, but was not limited to: advanced study of the cervical spine using MRI imaging; special emphasis on the ligaments and stabilizers of the neck; considerations of hemodynamics and vascular anatomy in the craniocervical junction.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2018

ICA: Advances in Spinal Care Symposium. *The role of the upper cervical spine in post-concussion symptoms; upper cervical biomechanical vulnerability from a mechanistic standpoint; advancements in dynamic Upright MRI imaging of misalignments at the craniocervical junction post head/neck trauma and their ill effects on the brain and the central nervous system; cone beam cat scan (CBCT) as a diagnostic tool for the upper cervical chiropractor; DMX imaging of the AO atlas alignment; relationship of the cervical alignment and dental malocclusion.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, San Diego, California, 2018

Diagnostic Imaging II. *The subject matter included, but was not limited to: advanced study of x-ray with specific emphasis on identifying injuries and traumas in the upper cervical spine.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Tampa, Florida, 2018

Certified Level I in NUCCA Procedures, National Upper Cervical Chiropractic Association (NUCCA), Irvine, California, 2018

NUCCA Spring Conference, National Upper Cervical Chiropractic Association, Department of Continuing Education, Life Chiropractic College West, Irvine, California, 2018

Knee Chest. *This course was an overview of the Knee Chest Technique and focused on a segmental approach to upper cervical misalignments.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2018

Blair Technique. *This course was an overview of the Blair Technique and how anatomical asymmetry affects patient outcomes.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2018

Chiropractic Orthogonal Procedures. *Overview of the similarities and differences of orthogonal chiropractic technique protocols including NUCCA, Atlas Orthogonal, and Orthospinology.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Online, 2018

Functional Neurology. *The subject matter included, but was not limited to: advanced study of the inter-relationship between the neurology and the physiology of the human body; emphasis given to the cervical neurology and its effects on the health of a person.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, San Francisco, California, 2017

Orthogonal Commonalities. International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Hayward, California, 2017

Writing Research Papers. *Putting research into your practice included the following topics: basic principles of evidence-based practice, a report of chiropractic research, and how to search and evaluate evidence. Emphasis was placed on research study creation and the publication of research studies.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2017

Cervical Imaging. *The subject matter included, but was not limited to: an overview on imaging of the cervical spine with both x-ray and MRI; in-depth study of the anatomy, neurology and vascular study of the cervical spine with emphasis on the craniocervical junction.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2017

Digital Motion X-rays and Diagnostic Imaging I. *The subject matter included, but was not limited to: the best current uses of static x-ray and motion x-ray.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2017

Foundation of Upper Cervical Chiropractic & Subluxation Theories. *The subject matter included, but was not limited to: focused study of the neurophysiology of the upper cervical subluxation; upper cervical anatomy; pain pathways; pathological conditions of the upper cervical spine; and*

*the review of supporting research studies.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2017

*Spinal Biomechanics. Comprehensive study of the biomechanical relationships of the upper cervical complex, the skull and lower vertebra. Select topics included: muscles of the cervical spine, ligaments of the cervical spine, osseous asymmetry, coupled motion of the spinal segments, normal vs abnormal range of motion and a review of the literature.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2017

*Nutritional Protocols Utilizing Chiropractic Philosophy. Implementing nutrition supplementation protocols to improve patient outcomes from a chiropractic perspective.* California Chiropractic Association, Department of Continuing Education, San Diego, California, 2017

NUCCA Spring Conference, National Upper Cervical Chiropractic Association, Department of Continuing Education, Life Chiropractic College West, Newport Beach, California, 2017

*Clinical Neurology 2. The subject matter included, but was not limited to: clinical syndromes, common neurological conditions, patterns of dysfunction which can occur during the subclinical phase of disease conditions.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2016

*Clinical Neurology I. The subject matter included, but was not limited to: the nervous system's embryology and the related functional organization of the nervous system.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2016

*Personal Injury.* California Chiropractic Association, Department of Continuing Education, San Diego, California, 2016

*Bridging the Gap Between Science, Healing and Patient Outcomes,* California Chiropractic Association, Department of Continuing Education, San Diego, California, 2016

*Cranio cervical Junction Anatomy I and Anatomy II. The subject matter included, but was not limited to: the detailed examination of the cervical spine and its inter-relationship with the skull.* International Chiropractic Association Department of Continuing Education, Palmer College of Chiropractic, Chicago, Illinois, 2016

*Upper Cervical Care for Newborns.* California Chiropractic Association, Department of Continuing Education, San Diego, California, 2016

NUCCA Spring Conference, National Upper Cervical Chiropractic Association, Department of Continuing Education, Life Chiropractic College West, Newport Beach, California, 2016

NUCCA Fall Conference, National Upper Cervical Chiropractic Association, Department of Continuing Education, Life Chiropractic College West, Bloomington, Minnesota, 2015

Patient Education, Examination, Technique, X-ray, Ethics and Law, Radiology and Philosophy. Chiropractic Continuing Education. Board of Chiropractic Examiners, San Diego, California, 2015

NUCCA Spring Conference, National Upper Cervical Chiropractic Association, Department of Continuing Education, Life Chiropractic College West, Newport Beach, California, 2015

X-ray Guidelines. Back to Chiropractic CE Seminars, Board of Chiropractic Examiners, Online, 2015

NUCCA Fall Conference, National Upper Cervical Chiropractic Association, Department of Continuing Education, Life Chiropractic College West, Newport Beach, California, 2014

California Chiropractic Association Convention. *The subject matter included, but was not limited to: x-ray findings in practice; ethics and law; adjustive technique; sleep wellness; your patients' brains; and chiropractic nutrition.* California Chiropractic Association, Department of Continuing Education, San Diego, California, 2014

International Chiropractors Association of California. *The subject matter included, but was not limited to: ethics and law; x-ray certification, history taking, physical exam.* Board of Chiropractic Examiners, San Diego, California, 2012

## **SCHOLARLY PRESENTATIONS**

Young, DC, D. (2017, April). Ossification Sites and their Clinical Relevance. Powerpoint presented at the NUCCA Spring Conference, Newport Beach, California.

## **SELECTED MEMBERSHIPS**

Academy of Chiropractic, 2018-Present

International Chiropractic Association, 2016-Present

California Chiropractic Association, 2012-Present

National Upper Cervical Chiropractic Association, 2014-Present

## **SELECTED HONORS AND AWARDS**

Magna Cum Laude Graduate, Life Chiropractic College West, Hayward, California, 2011

Clinical Excellence Award, Life Chiropractic College West, Hayward, California, 2011

Scholar Athlete of the Year, Oakland Tribune, 1991

Eagle Scout, Boy Scouts of America, Oakland, California, 1989

## **SELECTED COMMUNITY SERVICE**

Urban Street Angels, San Diego, California, 2016-Present

ChiroMission, Dominican Republic, 2010
