### **Consent to Physical Examination and X-Rays**

Prior to receiving care in our office, a health history and physical examination will be completed. These procedures are performed to assess your specific condition, and your spinal health. These procedures will assist us in determining if chiropractic care is needed, or if any further examinations or studies are needed before treatment. In addition, they will help us determine if there is any reason to modify your care or provide you with a referral to another health care provider. All relevant findings will be reported to you.

During the consultation, the doctor may determine that an examination and x-rays are required for my care. I consent to an examination an x-rays in order to diagnose my condition. I accept and acknowledge ultimate responsibility for all charges incurred. Payment is due at time of service.
